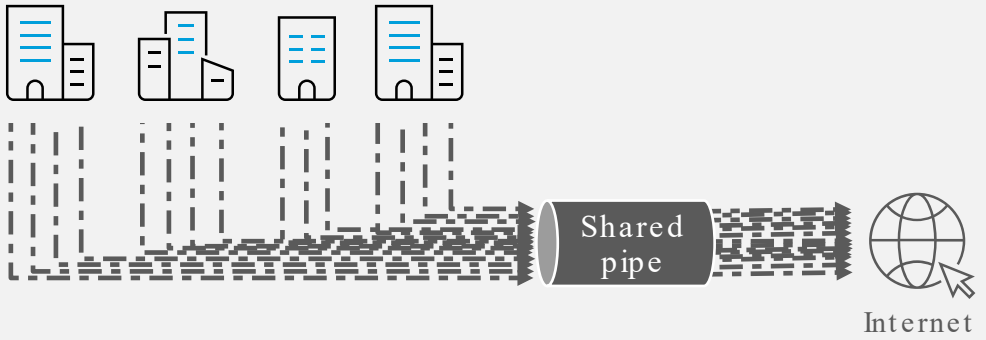
When it comes to internet speed and performance… sharing is not caring

Cable broadband

Do you really want to share a limited supply of bandwidth with other users?

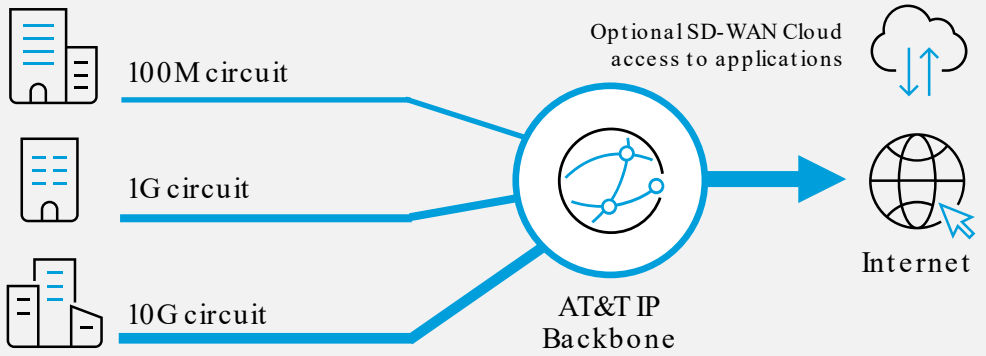
All businesses use the same pool of bandwidth at the same time.



AT&T Dedicated Internet

Get your own dedicated, unshared bandwidth.

You get your own pool of bandwidth. All yours, with guaranteed speed.



AT&T Business

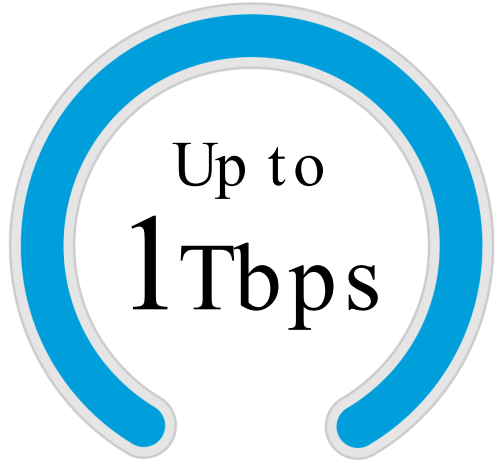
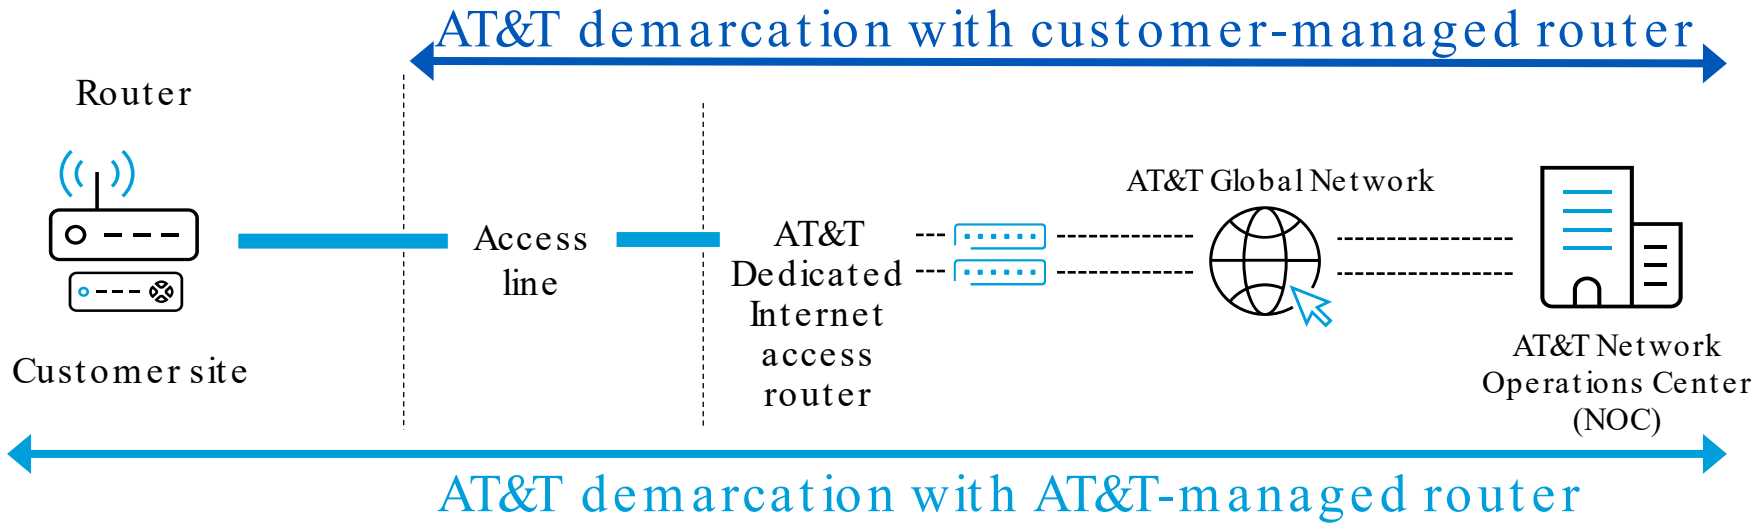
More than 100 employees



Ideal for e-commerce hosting, cloud apps, large file transfers, high-definition video, and web-conferencing.

Hands-on or hands-off management. You decide.



Router management

- AT&T Dedicated Internet can be managed by AT&T or the customer
- AT&T Network Operations Center (NOC) will ping every 2 minutes to check for issues.

AT&T managed

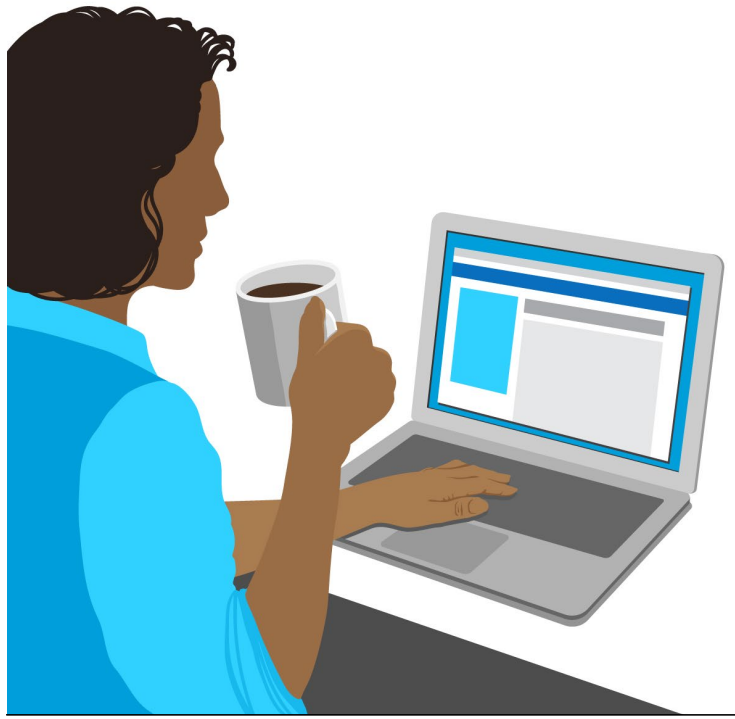
- If the router needs troubleshooting, AT&T NOC will investigate.
- If router provided by AT&T Business is causing service issues, a new router will be shipped next-business-day delivery.

Customer managed

- If the customer-owned router needs troubleshooting, we will notify you and assist if requested.

AT&T Business

Simplified service and support: Manage every facet in your personalized portal



Ordering

Access real-time ordering and check order status.

Network map

Monitor and manage your global network with bandwidth alerts 24/7.

Support

Access account management and troubleshooting guides.

Billing

Get a single bill and contract with flat rate or usage-based billing options.

Reporting

Spot trends in real time and investigate performance patterns.

Ticketing

Access real-time ordering and check order status.

Why AT&T

What can we provide that others can't?

Knowledge

Dedicated sales teams with technical expertise who know your business and who are ready to assist your growing business.

Complete solutions

A single provider with solutions for connectivity, security, voice and collaboration, devices, and more.

Support

Single bill and contract includes router, service, and management—with flat-rate or usage-based billing options.

Our company

What proof do we have that shows we're the best?

More availability

Largest fiber footprint with fiber installation at more than 9 million locations.

Business experts

Providing service to nearly all fortune 1000 companies. We've been one of Forbes' "most admired telecom companies" since 2016. We provide service to mission-critical government agencies.

Robust network

IT network carries over 465 petabytes of daily data traffic—more than some cable companies combined.

It’s time

to stop sharing your internet with others and dedicate it solely to your business

AT&T Business
